

Prevent. Promote. Protect.

Community-Based Care Program

Nursing Services/Immunization Clinic Schedule

Nursing Services/Immunizations are provided by scheduling an appointment. Nursing services include immunizations, tuberculosis (TB) skin tests and medications; blood pressure screening; counseling and referrals for prenatal care, infant and child care, communicable disease services and general health counseling and referral. Please **bring a copy of current shot record and insurance or Medicaid card.** There are certain times of the year when the clinics will be busier with immunization services. The number of clients seen during clinic hours may need to be limited during busy times in order to ensure quality service and client safety.

To Schedule an Appointment: Call the phone number listed for the individual clinic. Please arrive 15 minutes prior to your scheduled appointment time.

Shaded areas indicate clinic days with advance appointments. All other days offer same-day appointments
